THIS HAIR WASH has been prepared
by us for the last 20 years. Its sale
is steadily increasing in India, the Straits
and Japan. It possesses all the qualities of
a Hair Oil or Pomade without their sticki-
ness. It induces a healthy action of the
scalp and nourishes the Hair. Dandruff
never appears whilst it is in use. It con-
tains none but the best ingredients, and
the greatest care is taken in the com-
pounding. When the Hair falls off after
frequent use of any other stickiness, this Wash
will surely prove of the greatest value.

From its great nourishing power on the
follicles it may in time cause Hair to return
to its natural color; it, however, does not
contain a particle of any dyeing ingredient.
Using it constantly will most certainly pre-
vent the Hair falling. It is easily in use,
the smallest quantity sufficing. It has no
sediment, and therefore requires no shaking.

HONGKONG, SATURDAY, MARCH 12, 1881.

WE have already published the tempo-
rately-worded memorial forwarded by
the Fochow Foreign Community to the
Postmaster General in London, praying
for a subsidised weekly steamer con-
nection between Hongkong and that tea-
exporting mart. The fact is admitted
that Fochow, from its immense im-
portance as a port of export during the
Tea Season, is placed under unexcep-
tionally disadvantageous circumstances
owing to its lack of regular mail com-
munication; and the sensations of an-
noyance and inconvenience thus caused
to its residents are probably not less
acute than the isolated situation
which brings about this state of things
is explainable by the lack of trade with
the neighbouring Coast ports. This
grievance is of old standing, and the
Hongkong Chamber of Commerce has
denied redress over ten years ago by
Earl Granville, when chief of the
Foreign Office, upon a memorial being
forwarded on the subject. The attitude
which we have taken up in the matter
has apparently not met with the ap-
proval of our Fochow contemporary, al-
though it is somewhat difficult to dis-
cover the grounds for the dissatisfaction.
It is not now contended, we believe,
that Hongkong ought to supply the
funds for subsidising the proposed
weekly steamer to Fochow; but notwith-
standing this fact, the gentleman who
conducts the local newspaper at Fochow
seems to have conceived a strong dislike
both to the Hongkong Postmaster-Ge-
neral and ourselves, because the Post-
master has not seen fit to send Home an
ultimatum for the Fochow community,
and we have said it was no longer a
question for this Colony. By a curious
coincidence the Chamber of Commerce
here have declined to take further action
in the matter; and now it is pleasing
to note that the very persons most in-
terested have addressed their memorial
to the only place where it can have any
effect. This action is not only justifiable
but right and proper; and we sincerely
trust that the Fochow memorialists
will obtain a favourable reply to their
reasonable representations. It is
necessary to say anything more upon
this strange and ill-advised remark of
the Fochow Journal on this matter, as

it is unlikely that they at all represent
the sentiment of the mercantile com-
munity of Fochow; but it is highly amu-
sing to find the Courier of Shanghai
indulging in a sneer at "a Southern
journal" over this question. In an ar-
ticle, which is merely an echo of the
Fochow weekly with a summary of the
memorialists' printed petition, and con-
tains not a solitary remark that is either
original or pertinent, this silly-hue and
cry against the Hongkong Postmaster
and the China Mail is solemnly taken
up in leader type. It seems to be a
matter of no consequence that the writer
knows nothing about the subject on
which he seeks to enlighten his readers.
That the Hongkong Chamber of Com-
merce memorialised on this point to-
wards the end of 1869, and that a most
peremptory and conclusive reply was
received, declining to devote Imperial
funds and forbidding any vote from the
Hongkong Treasury to be made for
such a purpose, may well be regarded
as sufficient reason for Hongkong folks
leaving the remainder of the fighting
to be done by Fochow in her own
proper person. There is, in these days
of rapid communication, every reason
why the Imperial Government should
sacrifice the small sum required towards
providing greater mail facilities for this
large tea-trading centre; and if the
Imperial Government were to display
reasonable liberality, it is just possible
that the Hongkong Post Office might
do a little in aid of that desirable object.
But to get Hongkong to memorialise,
and after one snub has been adminis-
tered, to treat this Colony with bad
language because it declines to be
saddled a second time on behalf of
somebody else, is slightly unreasonable.
That, however, is precisely the position
in which this Colony now stands to-
wards the Fochow memorial; and it
will help to explain the apparent, but
only apparent, coldness and want of
sympathy shown at the last meeting of
the Hongkong Chamber of Commerce
on this point.

It may have struck many of those in-
terested as curious that a new Ordinance
regarding the Extradition of offenders
from this Colony to the Macao Govern-
ment was necessary, since No. 13 of
1870 has formed a part of our local
statute-book for more than ten years.
The reason is this, that the British Go-
vernment having found it impossible to
come to an agreement with the Govern-
ment of Portugal on the question of
extradition, and this reciprocal provision
on the part of the Macao Executive be-
ing necessary before Ordinance 13 of
1870 was proclaimed law, the Ordinance
has been of no effect whatever during all
these years. The obstacle which renders
any Imperial arrangement impracticable
is raised by the unique position assumed
by Portugal on the question of capital
punishment, by which the Portuguese
Government declines to extradite any
offender charged with murder unless a
guarantee be given that the prisoner
will not suffer the extreme penalty of
the law. Although this may, of course,
be quite consistent with the policy of
Portugal, seeing that she does not
countenance the penalty of death being
paid for any crime, it would be out of all
reason for the British Government to
give any guarantee such as that referred
to. Although an Ordinance which in a
measure may be regarded as reciprocal
has been passed by the Macao Execu-
tive, and forwarded to the Hongkong
Government, this exceptional position
of affairs has had to be considered
by both sides in this most desirable
piece of legislation. No such difficulty
is raised by the local Ordinance which
was read a first time in the Legislative
Council of this Colony the other day; but
by its provisions—which are practically
the same as those of the Bill passed in
1870—little more is effected than this,
that power is given to the Governor, "if
he shall in his discretion think fit," to
take the usual steps necessary to extradi-
tion, and to give up certain offenders to
the authorities of Macao. We believe
that a Chinese "gentleman" may pro-
bably be the first offender directly
affected in Macao by the completion of
this reciprocal arrangement.

THE Chamber of Commerce meeting
was satisfactory, in so far as the mem-
bers showed their determination to per-
severe in the course of reform upon
which they are agreed. It cannot be
said that great progress has been made;
but persistence, like Truth, is great,
and must in the end prevail. It was
most gratifying to observe the Chinese
members taking up the question of
emigration to Honolulu about which
some has already been said. There was
nothing new in what was said; but it
was a novelty that it was put forward,
not without ability, fluency and clear-
ness, by a Chinaman.

That fact is an indication
of the interest in public events which
is being developed amongst the Chi-
nese, but as a sign that the policy of
the present Governor of this Colony
does not receive the support of the na-
tive community which has hitherto been
claimed for it. There seems to be a
happy coincidence, as was pointed out
by the Chairman, in the anticipated
arrival here of King Kalakaua from
Honolulu; and the memorial which
will now be presented to the Govern-
ment will thus receive royal support
which may go far towards securing for
it a favourable reception. Mr Ho
Ansei, the Chinese speaker before alluded
to, touched also upon the subject of salt
manufacture in Hongkong, and made a
most remarkable statement, which
very naturally induced the Chamber
to relegate the matter to the Com-
mittee for consideration. The state-
ment was neither more nor less than
that the Governor had refused to grant
a lease of land for the manufacture of
salt by the sea-shore near Stanley; but
the assertion was so astonishing that,
as we have said, it was remitted to the
Committee. The question raised, how-
ever, touches the exercise of Governor
Hannessy's discretion in the matter of
public improvements; and upon that we
shall have something to say later on.

[COMMUNICATED.]

For some time past we have had re-
siding in our midst the son of one of the
original lot-holders in this island, one
who had property granted to him in fact
before it came under the Colonial Office,
and when the Government of this Is-
land was in the hands of the Foreign
Office. This gentleman came out, we
understand, to arrange certain matters
connected with his property which
chances to adjoin the series of tumble-
down buildings denominated the Central
Market of this city. He saw that he
might be able not only to improve his own
property but hoped he might be able to
cause those in power to reconstruct
that eyesore in our midst, namely the
Central Market, if he made a
proposal to form a joint street on the
East side of the market. From
what we can understand, his proposal was
received with favour by His Excellency,
the Governor as late as last November.
It then went through the several Com-
mittees and apparently received universal
support till some time in February. It
is needless to inform any one who has
attempted to get anything through the
Government here that Mr Webster had
to pay probably half a hundred visits to
the different Departments of the Go-
vernment, and to write numerous official
letters on the subject, and having plenty of
leisure he spared neither time nor trouble
in endeavouring to push this matter
through. The scheme approached so near
completion that he was actually asked to
have the contract drawn, when at the
last moment it was discovered that the
money voted by the Government was not
sufficient to complete the work. The
matter had then to be reconsidered by the
same men who had previously agreed to
Mr Webster's proposal

FROM "THE GARDEN OF CYMO-DOOR."

By A. O. SWINBURNE.

Sea, and bright wind, and heaven of ardent air.

More dear than all things earth-born: O to me

Mother more dear than love's own long-

ing sea.

More than love's eyes are, fair,

Be with my spirit of song, things to bear.

As fire to feel and breathe and brighten; be

A spirit of sense more deep of deity.

A light of love, if love may be, more strong

In me than very song.

For song I have loved with scound love,

But these

These first, those mother; or my songs had

breath.

That love of love, whose bondage makes

man free,

Was in me strong as death.

And seeing no slave may love thee, no, not

here

That loves not freedom more,

And more for thy sake loves her, and for

hers

Thee; or that hates not, on what'er thy

share

Or what thy love so ever, all things done

Of man beneath the sun.

In his despite and thine, to cross and curse

Your light and song that as with lamp and

verse

Guide thee the strength of our sphere

unseen.

Thy breath it was, thou knowest, and none

but thine.

That taught me love of one thing more

divine.

O flower of all wind flowers and sea-flowers,

Made lovelier by love of the sea

Than thy golden own field-flowers, or tree-

flowers

Like foam of the sea-facing tree!

No foot but the sea-wave's there settles

On the spikes of thine anthers like horns.

With snow-coloured spray for thy petals,

Black rocks for thy thorns.

Was it here, in the waste of his waters,

That the lovely north wind, when his love

On the fairest of many Kings' daughters

Bore down for him from the wave,

Chose forth of all furthest his bride,

As a haven to harbour her head,

Of all lowlands on earth and all highlands,

His bride-worthy bed?

Or haply, my sea-flower, he found thee

Made fast as with an anchor to love.

And broke, that his waves might be round

thee.

The fetters like rivets of sand?

And after by the blast of him drifted

Thy blossom of beauty was borne,

As a lack by the heart in her lifted

To mix with the morn?

By what rapture of rage, by what vision

Of a heavenly heaven than above,

Was he moved to desire thy division

From the land as a vest for his love?

As a nest to permit the wings of Hawaii

The ways where of old they would be,

As a bride-bed uplifted for his pleasure

By sea-rock and sea?

THE VISIT OF KING KALAKAUA.

(Japan Gazette.)

Suggestions are made for the reception

and entertainment of the King of

Hawaii by the government of Japan.

We sincerely hope no attention whatever

will be paid to the recommendation.

When visitors of distinction arrive in Japan

the reception accorded to them is courteous,

and on a scale of magnificence which would

be regarded as lavish by others than the

Japanese people whose notions of hospitality

are not confined or trammelled by questions

of expense. The government of the Mikado

have sufficiently shown their generosity in

the reception of foreign guests; and if

they resolve to permit the King of Hawaii

to visit Japan in pursuance of his expressed

desire, strictly incognito, there will be no

strain upon the established and graceful

hospitality for which Japan is deservedly

highly renowned and esteemed.

The nation has entertained the son and

grandson of Queen Victoria; the son of the

Emperor Alexander; Prince Tommaso of

Savoy; ex-President Grant of the United

States; and other considerable personages;

and though we mean no disrespect to the

King of Hawaii we think the line may be

drawn at the chief of some fifty or

sixty thousand semi-barbarous, wholly un-

NEWS BY THE AMERICAN MAIL.

THE IRISH DIFFICULTY.

London, Feb. 5.—As soon as the Irish

members had been suspended a meeting of

the party was held. After a discussion it

was decided to issue a manifesto to the Irish

people, asking them to remain quiet and

not to allow themselves to be forced into a

conflict with the armed forces of the empire.

During the night Mr. Parnell received several

communications from Liberal Clubs through-

out England, condemning the action of the

Speaker and hoping the agitation in England

against coercion would be carried on vigor-

ously. The address of the Irish members

to the Irish people was received in Dublin

to-night. It says:—

Fellow-Countrymen: At a moment when

too many acts of the Irish Executive abro-

gate the law and tend to drive you from the

positions of constitutional dignity, the reign

of force has been inaugurated against us

your representatives, here on the floor of

the House of Commons. A proposal to

depart from the ordinary and legitimate

procedure of Parliament, and to suppress, at

a stroke, the liberties of our country, has

imposed upon us duties from which we

could not shrink. Strictly and admittedly

confining ourselves within the rules and laws

of parliamentary action, we resisted these

flagrant proceedings only by resolving to

oppose illegally. On Wednesday last, in

violation of the law and the liberties of Par-

liament, the voices of the Irish representa-

tives were arbitrarily silenced, not to facilitate

any effort of useful legislation for the En-

glish people, which has always received our

advocacy and support, but in order that a

coercion act for Ireland might be forced

through the Legislature. Last evening we

thirty-five, your representatives, for claim-

ing our rights within the rules and pre-

cedents of this assembly, were removed by

force from the chamber. The scene, recall-

ing the worst days of the Stuarts, disgraced

the records of Parliament. A demand was

taken of our enforced absence to rush

through the House a resolution which was

designed against Ireland, which vests in

an individual autocracy the power to deprive

us of our liberty. In the midst of such

proceedings the news which reached us from

Ireland daily grows in gravity. Meetings

are illegally suppressed, arrests are arbit-

rarily made. Yesterday a man well known

to us—and to many of you during these

recent events as a counsellor of tolerance,

for his self-restraint and prudence has been

sent without warning and flung back into

the horrors of penal servitude.

Fellow-countrymen, we adjure you in the

midst of these trials and provocations, to

maintain the noble attitude that has already

assured your ultimate victory, to reject

every temptation to conflict, disorder and

crime, and to be corrected by the brief

reign of despotism. If you be true to your-

selves, your triumph is certain. To our

countrymen in Great Britain we appeal to

frustrate all endeavors to excite enmity be-

tween them and their English fellow-

countrymen, and to be corrected by the brief

reign of despotism. If you be true to your-

countrymen in Great Britain we appeal to

frustrate all endeavors to excite enmity be-

that a majority to decide question of im-

pendence must consist of not less than 800 mem-

bers, was rejected.

Gladstone's resolution, as amended, was

then agreed to. His Bill for the protection

of life and property in Ireland was then

urged, and the motion carried, and the

House adjourned.

New York, Feb. 4.—The Irish World

prints to-day the following cablegram re-

ceived from Thomas Brennan, their special

correspondent at Dublin, and also Secretary

of the Land League.—"Dublin, Feb. 3rd.

—David's arrest; the Castle authorities

declare his ticket-of-leave forfeited. In-

stant excitement all over Ireland at the

news. The Government by this act has

thrown off its disguise, and gives all whom

it may concern to know it will make open

war on the Land League or any organiza-

tion through which the Irish people may

declare its will. Great crowds gather

around the newspaper offices. Knots of

men are discussing the act and speculating

on the next step the Government will

probably take. The people are bold and

defiant, but cool and desperate. Hold all

money for Land League till advised by

cable."

David had not been many minutes in

Milkmarket Prison when he appeared in

the next day in view of a possible trial.

He was taken to the police station, and

remained there for a few days.

Dublin, Feb. 4.—The news of the arrest

of Michael Davitt spread throughout the

provinces with amazing rapidity. Igni-

tation meetings have already been held.

Michael Davitt was taken to the police

station, and remained there for a few days.

After his arrest, Egan, Brennan and Dillon

of the Land League went to the Castle and

sought to have an interview with him, but

the police informed them that he was not

there. The detectives who arrested Davitt

drove to Kingstown, where the prisoner was

placed on board a mail steamer for London.

Egan, Brennan and others went to King-

stown to see him before the steamer sailed,

but the police refused them admittance,

and would allow no one to see the prisoner.

The doctor who attended him, went to

the hospital as soon as he arrived, and

prison, as he was threatened with lung

trouble. Egan and Brennan subsequently

succeeded in obtaining an interview with

David, who was in good spirits. David,

on reaching Bow-street Police Court, was

remanded to the County Gaol, where he

remained for a few days. The proceedings

were private, but it is officially

announced that David has been

ordered to finish the remainder of his sen-

tence of penal servitude. He was removed

from Bow-street under escort.

David was taken to Pentonville

prison. It is supposed the police are being

instructed to give no information. He has

been in four and five years' imprisonment

to serve.

London, Feb. 2.—Gladstone's residence in

Downing street is guarded by policemen

night and day, in view of a possible trial.

Gladstone was followed at a distance

by a policeman when going to the

Commons to-day.

Feb. 5.—It is not expected that David

will be detained after order has been re-

turned in his case, as he is not a member

of the House of Commons. It is

generally believed the police will seize the

Land League officers and that the League

will be disbanded by proclamation.

At a meeting of the Land League last

night Dillon charged the Government with

conspiracy to suppress the League, and

urged the League to resist the Government

by force. The meeting was held in the

hall of the League, and was attended by

a large number of members. The League

is now in a state of great excitement.

An informal meeting, containing nine

pounds of gunpowder, was found in a

London square.

The Parnellites decided, after a division

last night, to resist the Government by

force, and to resist the Government by

force, and to resist the Government by

force, and to resist the Government by

force, and to resist the Government by

force, and to resist the Government by

These resisted the attack for about an hour

and were about retiring, when Parnella

appeared at the head of a Parnella division,

which immediately occupied the position,

and after a well-contested fight drove the

Chilicians from the field. Loss not stated.

New York, Feb. 4.—The North German

Lloyd steamer Kron Prinz-Friedrich-Wil-

helm came in collision with another steamer

off Cuxhaven. The latter was sunk in

three minutes, involving a loss of six lives.

St. Petersburg, Feb. 7.—The War party

in Peking collapsed on receiving intelligence

of the capture of Gek-Tup.

TRADE MARK.—Sanctioned by H. M. Government.
HEALTH, STRENGTH, & ENERGY.

DR. LALOR'S
PHOSPHODYNE.

Trade Mark.—PHOSPHODYNE.
DISCOVERED AND SO NAMED, A.D. 1862,
BY R. D. LALOR, M. D.
DR. LALOR'S PHOSPHODYNE is a Pure
Solution of PHOSPHORUS in combination
with the Vegetable Alkaloids Quinine, Cypripedin,
Xanthoxyl, &c., prepared by a Chemical process
known only to DR. LALOR, producing a re-
markably Elegant and Pleasant Tasting Preparation,
equal to the best Wines, Perfectly free from
Stychnia and all other Dangerously Active
Drugs; superseding the numerous objectionable
forms of Phosphorous Pills, Pinules, Oils, and
other Nauseous Mixtures with which the Market
has been flooded since the Phosphoric Treatment
of Disease was first made Public by DR. R. D.
LALOR, in 1862.

To Residents in India, China, and the
Colonies, it will prove invaluable as a
RELIABLE Liver Tonic and
a Vitalizing Restorative.

This Phosphatic combination, the Wonder of
Modern Chemistry, is pronounced by the most
eminent members of the Medical profession to be
unequalled for its power in replenishing and
elaborating the Vitality of the Body; by its
supplying all the essential constituents of the
BLOOD, BRAIN, and NERVE SUBSTANCE;
and for developing all the Powers and Functions
of the system to the highest degree; by its being
agreeable to the palate, and innocent in its
action. While retaining its wonderful properties,
it acts as a Specific, surpassing all the known
THERAPEUTIC AGENTS of the present age, for the
STRENGTH and PERMANENT CURE of all derange-
ments of the Nervous and Blood Systems,
Nervous Prostration, General Debility, Mental
and Physical Depression, Impairment for Study
or Business, Noise in the Head and Ears, Loss
of Energy and Appetite, Indigestion and Liver
Complaints, Flatulency, Nervous Fancies, Hypo-
chondria, Nervous Debility in all its Stages, Loss
of Memory, Softening of the Brain, Paralysis,
Affections of the Spinal Column, Lumbago,
Sciatica, Affections of the Kidneys, Bladder,
Urinary Deposits, &c., &c., Spasms, Asthma,
Consumption, Chronic Bronchitis, Scrofula and
Skin Diseases, Rickets (in children), Wasting or
Withering of the Muscles, Impaired Nutrition,
Impoverished Blood, Premature Decline, and all
morbid conditions of the system, dependent upon
the deficiency of this VITAL FORCE, whether
arising from Climate, Brain Fag, or whatever
cause.

DR. LALOR'S PHOSPHODYNE being a
natural Restorative, its Energizing Effects are
not followed by corresponding reaction; but are
PERMANENT; and are frequently shown from the
first day of its administration by a remarkable
increase of Nervous Power, with a feeling of
Vigour, Strength, and Comfort, to which the
patient has long been unaccustomed. DR.
LALOR'S PHOSPHODYNE gives back to the
Human structure in a suitable form the Phos-
phoric or Lively Animating element of life which
has been wasted, and exerts an important in-
fluence directly on the BRAIN, SPINAL MARROW,
and NERVOUS SYSTEM, of a Nutritive, Tonic,
and Vigorizing character; thereby checking all
Wasting of the Vital Fluid, and the more Ex-
hausting Processes of Life, maintaining that
Booyant Energy of the Brain and Muscular
System which renders the MIND CHEERFUL,
HAPPY, BRILLIANT, and ENDURANT; entirely
overcoming that Dull, Inactive and Sluggish dis-
position which many persons experience in all
their actions. A Marvellous Restorative for
Brain Tonic, Clergymen, Business Men, and
all who are engaged in the Competitive Strug-
gle.

PHOSPHODYNE, the Antidote for Climate
Disease. The Remedial properties of DR.
LALOR'S PHOSPHODYNE have spread its
fame throughout every Nation and Country in
the World, the natural outcome of which is,
that the sale has now become enormous in India,
China, Africa, and other Hot Climates. This
increased demand is attributable to the fact of
its possessing in the most perfectly assimilated
form the essential Vitalizing properties of
PHOSPHORUS, which reanimates the Ex-
hausted functions of Life when impaired by
Heat or other causes. A very large number of
Testimonials from the most distinguished Fam-
ilies, Private Persons, Military, Naval, Scientific and Pro-
fessional Men who are well known, speak of its
marvellous power in Nervous Debility, WANT
OF STAMINA, NERVOUS, MALE AND FEMALE
DEBILITY, and as a LIVER TONIC.

DR. J. COLLIS BROWNE'S
CHLORODYNE
(Ex Army Med. Staff)
IS THE ORIGINAL AND ONLY
GENUINE.

CAUTION.—Vice-Chancellor Sir W. P.
Wood stated that Dr. Collis Browne was
undoubtedly the Inventor of Chlorodyne,
that the story of the Defendant, Freeman,
being the Inventor was deliberately untrue;
which he regretted had been sworn to.
Eminent Hospital Physicians of London
advised that Dr. J. Collis Browne was the
discoverer of Chlorodyne; that they pre-
scribed it largely, and mean no other than
Dr. Browne's.—See Times, July 12, 1864.
The public, therefore, are cautioned
against using any other than
DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.
This invaluable remedy produces quiet,
refreshing sleep, relieves pain, calms the
system, restores the deranged functions,
and stimulates healthy action of the secre-
tions of the body, without creating any of
those unpleasant results attending the use
of opium. Old and young may take it at all
hours and times when requisite. Thou-
sands of persons testify to its marvellous
good effects and wonderful cures, while
medical men extol its virtues most exten-
sively.

CHLORODYNE is admitted by the profes-
sion to be the most wonderful and valuable
remedy ever discovered.
CHLORODYNE is the best remedy known for
coughs, consumption, bronchitis, asthma,
CHLORODYNE effectually checks and ar-
rests those too often fatal diseases—
diphtheria, fever, droup, ague,
CHLORODYNE acts like a charm in diar-
rhoea, and is the only specific in cholera
and dysentery.

CHLORODYNE effectually cuts short all
attacks of epilepsy, hysteria, palpitations
and spasms.
CHLORODYNE is the only palliative in
neuritis, rheumatism, gout, cancer, tooth-
ache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.
The Right Hon. Earl Russell communi-
cated to the College of Physicians and J. T.
Davenport that he had received information
to the effect that the only remedy of any
service in Cholera was Chlorodyne.—
See Lancet, Dec. 31, 1864.
From A. Montgomery, Esq., late Inspec-
tor of Hospitals, Bombay.—"Chlorodyne
is a most valuable remedy in Neuritis,
Asthma, and Dysentery. To it I fairly
owe my restoration to health, after eighteen
months' severe suffering, and when other
remedies had failed."
Dr. Lowe, Medical Missionary in India,
reported to the College of Physicians and J. T.
Davenport that he had received information
to the effect that the only remedy of any
service in Cholera was Chlorodyne.—
See Lancet, Dec. 31, 1864.

See leading article, Pharmaceutical Jour-
nal, August 1, 1869, which states that Dr.
J. Collis Browne was the inventor of Chloro-
dyne; that it is always right to use his
preparation when Chlorodyne is ordered.

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of *Notes & Queries* on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

The *China Review*, or *Notes and Queries on the Far East*, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelago and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a résumé in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review department.

Notes and Replies are classified together as "Notes" (head references being given) and "Queries" (tail references being given), as also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The *China Review* for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned associates should subscribe to this scholarly and enterprising Review. It is a six-page, bi-monthly, repository of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the Review. Address: *China Review, Hongkong, Northern District, Victoria Road, U.S.A.*

Trimmer's *Oriental Review* contains the following notice of the *China Review*:—"This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of *Notes and Queries on China and Japan*, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the *Calcutta Review*. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the *Review* by papers highly creditable to their respective authors. In a paper on Dr. Legge's *Shu King*, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connection with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the *Review*, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the *China Review* may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine."

THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at *Four Dollars* per annum delivered in Hongkong, or *Seven Dollars Fifty Cents* including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business-sound footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, consider themselves justified in guaranteeing an ultimate circulation of between 5,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of them.

The field open to a paper of this description, time-conducted by native efforts, but progressive and anti-obstructive in tone, is almost limitless. It is on the one hand commands Chinese belief and interest while on the other deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials, with Local Shipping and Commercial News and Advertisements.

Subscription orders for either of the above may be sent to
